

## Sponsorship Opportunities

Commercial sponsorship is encouraged with a range of options to display your products and services during various elements of the conference.

Any organisations wishing to take advantage of these opportunities should contact the Conference Manager.

## The Australian Society for Bulk Solids Handling

The mission of the ASBSH is to enhance the discipline of bulk solids handling through research, education and sound engineering practice. This to be achieved through the following strategies:

- To promote cooperation between universities, research establishments, consultants, equipment manufacturers & suppliers and industrial users.
- To encourage research and development, technology transfer and training.
- To promote education at the undergraduate level and continuing education at the postgraduate level.
- To hold national and international conferences at regular intervals.

The purpose of the society is to:

- Strengthen and enhance the practice of bulk solids handling capabilities of members and encourage excellence in both bulk solids handling and its management.
- Provide a national focus and forum for the practice of the bulk solids handling needs of members.
- Organise face-to-face technical events.
- Foster and support education and training in all aspects of the practice of bulk solids handling.

## Conference Location

The ICBMH 2026 will be take place in Fremantle, Western Australia. Fremantle is a port city that is part of the Perth metropolitan area. It is known for its maritime history and Victorian architecture. For more information on Fremantle, visit [www.fremantle.wa.gov.au](http://www.fremantle.wa.gov.au)

## Further information and enquiries

For further information regarding sponsorship options, media and other general enquiries, please contact the Conference Manager, Danielle Harris:

**Danielle Harris**  
Conference Manager  
The University of Newcastle  
Email: [info@icbmh.com](mailto:info@icbmh.com)  
Phone: +61 2 40339039

Prospective authors / attendees are invited to contact the Conference Chair, Emeritus Professor Mark Jones, if they need further information:

**Mark Jones**  
Conference Chair  
C/o Centre for Bulk Solids & Particulate Technologies  
The University of Newcastle  
Email: [Mark.Jones@newcastle.edu.au](mailto:Mark.Jones@newcastle.edu.au)  
Phone: +61 2 40339039

## Registration Fees

Registration fees include welcome reception, conference dinner, morning / afternoon tea and lunches for the duration of the conference.

Early Bird Registration: Register before **7th of April 2026** to receive the early bird discount. All prices are in AUD and exclude taxes.

\$ 1,490 Full Rate (3 full days) + GST  
\$ 1,190 Early Bird Rate (3 full days) + GST  
\$ 1,000 ASBSH Member Rate (3 full days) + GST  
\$ 590 Student Rate (3 full days) + GST  
\$ 795 Daily Rate (1 day) + GST

## Conference Venue and Accommodation

The conference will take place at the Esplanade Hotel Fremantle by Rydges  
46 - 54 Marine Terrace,  
Fremantle, WA, 6160 - Australia  
[www.rydges.com](http://www.rydges.com)  
Ph: +61 08 9432 4000

Accommodation must be booked directly with the hotel.  
Discounted rates apply for conference participants.

# ICBMH 2026

Fremantle  
Western Australia

7th - 9th of July, 2026

## 15<sup>th</sup> International Conference on Bulk Materials Storage, Handling & Transportation

*Presented at*  
Esplanade Hotel Fremantle  
by Rydges

Major Sponsor

Organised by

on behalf of

Australian Society for Bulk Solids Handling

## Invitation - Conference Chair, Mark Jones

The 15th International Conference on Bulk Materials Storage, Handling and Transportation follows the well-established tradition of the previous conferences in the ICBMH series, dating back to 1983. The ICBMH series prides itself on supporting and inviting the greater bulk materials community to showcase papers on topics such as industrial case studies and success stories. Advancements continue to be made in the development, research and implementation of the many aspects of bulk materials storage, handling and transportation. This conference will provide an excellent forum for practitioners, researchers and designers to come together to review and exchange ideas and experiences in established, new and emerging technologies with the many others who deal with bulk materials on a daily basis, both nationally and internationally.

I would like to take this opportunity to invite you to participate in the ICBMH 2026 conference and look forward to welcoming you to Fremantle, Australia, in July 2026.

## Conference Focus

Considerable advances continue to be made in research, development, application and implementation of the technologies associated with various aspects of bulk solids storage, handling and transportation. This conference will provide a forum to review the state-of-the-art with respect to research and development and promote the exchange of ideas and experiences between researchers and practitioners.

The Conference will be of particular interest to a wide range of industries, including:

- Mining and mineral production and processing
- Power generation
- Chemical and petrochemical process industries
- Agriculture and biomass production and processing
- Energy and Environment
- Food industry

## Topic Areas

Papers are invited on the following subjects:

### Storage and Handling

- Bin, hopper, chute and stockpile design
- Structural design aspects
- Feeding and weighing
- Discharge control systems
- Heavy mobile machines
- Conveyors and elevators
- Blending and sampling

### Transportation

- Belt, pneumatic and hydraulic conveying
- Road and rail transportation
- Ship loading and unloading
- Systems studies in handling and transportation

### Energy, Resources and Environment

- Storage, feed and transportation of biomass, agricultural and waste materials
- Characterisation
- Waste utilisation opportunities
- Dust and particulate characterisation
- Environmental factors

### Related Areas

- Characterisation of bulk solids
- Instrumentation for bulk solids handling applications
- Education and research in materials handling
- Life cycle costing and maintenance of material handling systems
- Mixing, blending and segregation
- Materials handling challenges

## Note for intended authors

Intending authors are invited to submit the titles of proposed papers, together with a brief synopsis of not more than 250 words outlining the aims, content and conclusions of their paper. The scope of papers may focus on any matters relating to the many facets of Bulk Materials, Storage Handling and Transportation. Papers may range from the outcomes of ongoing research through to industry case studies.

Accepted papers will be peer reviewed and published in the Conference Proceedings. Guidelines for pre-production of manuscripts will be distributed to authors upon acceptance of synopses.

Abstracts can be emailed to **Danielle Harris, Conference Manager:**

[info@icbmh.com](mailto:info@icbmh.com)

## Call for Abstracts is Now Open

Abstract submission by  
1 July 2025

Notification of provisional acceptance by  
8 September 2025

Receipt of full text for review by  
6 February 2026

A statement confirming that at least one of the authors will attend the conference to present the paper should accompany abstracts.
